

Make Better Decisions with TTITRIMETRIX® EQ

"After assessing our staff, implementing EQ training, and working on employees' specific work strategies, we saw a 25% increase in annual profits."

Leveraging the power of three sciences, **TTI TriMetrix EQ** measures your ability to sense, understand and effectively apply the power and acumen of emotions to **facilitate high levels of collaboration and productivity.**

TriMetrix EQ combines Behaviors, 12 Driving Forces[™] and Emotional Intelligence in a fully integrated assessment.

TriMetrix EQ is available in management/staff, executive and sales versions.

What Does TriMetrix EQ Provide?

Behaviors

Behavioral research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment. This report measures the four dimensions of normal behavior: dominance, influence, steadiness and compliance.

TriMetrix EQ tells you how this individual will perform.

Driving Forces

Knowledge of an individual's driving forces help tell us why a person behaves a certain way. 12 Driving Forces[™] measures the primary driving forces cluster – the top four of an individual's driving forces – to tell a story of how a person derives meaning from life and work.

TriMetrix EQ illuminates what drives this individual's behavior – the *why* behind their actions.

Emotional Intelligence

The report was designed to provide insight into two broad areas: Intrapersonal and Interpersonal emotional intelligence. Within these broad areas, this report measures five dimensions of emotional intelligence: Self-Awareness, Self Regulation, Motivation, Empathy and Social Skills.

TriMetrix EQ focuses and improves on an individual's decision making abilities.
